Tiffani - I understand your concern, can we discuss this and see what sort of compromise we can agree upon? Or what you would specifically like me to change about my release? I have called your office several times with no response. Can you call me at 703-408-9150 when you get a moment? Darcy and Rosey do not have their computers out here so I have not been able to see their release. If you send that to me I can ammend mine to use more neutral language. But I cannot simply use theirs, as my version will need to go on the HSUS web site. And as we are potentially spending tens of thousands of dollars here our headquarters will very much want to give an adequate update of our actions to our members. Thank you.

I have already reviewed a press release done by Second Chance. I do have serious concerns about presenting information that heightens public condemnation of either Dan Christensen or David Christensen. These people are innocent until proven guilty in a court. I believe that the facts of what you found should be left for trial. I prefer the press release written by Second Chance and would request that it be utilized. I completely oppose any video or photos being released to the public. Doing so will only jeopardize my review of this case for prosecution.

My office number is 605.297.3975.
